

Reflecta

THE ONTOLOGY OF CONSCIOUSNESS

DESIGN STRATEGY

A. BREAKING THE CODE FOR INNOVATION

FROM CONVENTION TO COGNITIVE ENTANGLEMENT

A. How do we move from analog solipsism to digital reflection?

By investing in the history of human cognition, we create a new trajectory forward.

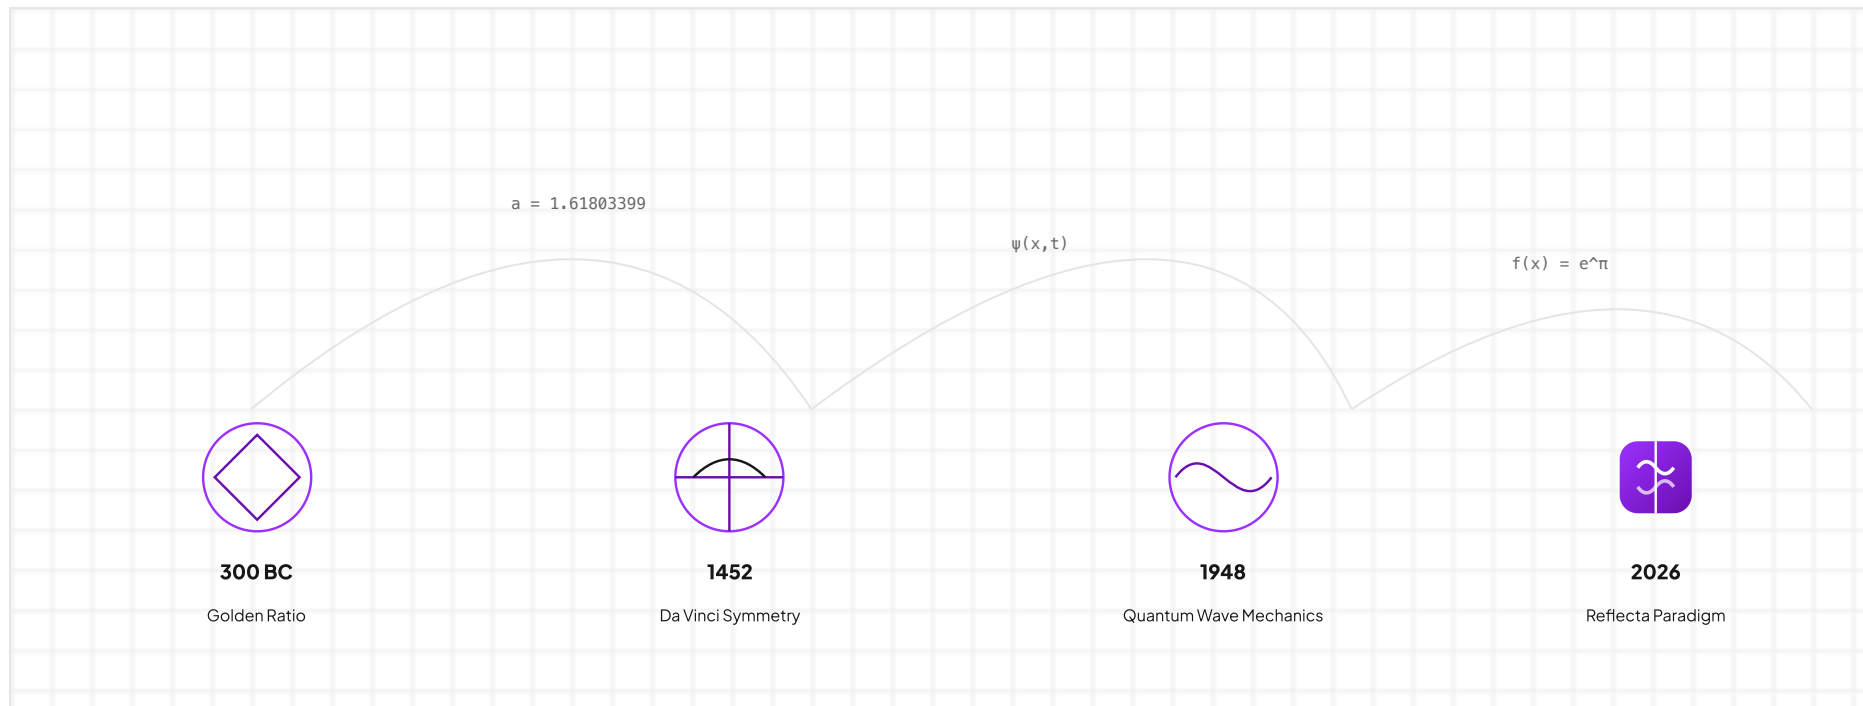

B. The Event Horizon of the Mind

The investment in our cognitive DNA allows Reflecta to move out of the traditional linear timeline of memory and into an interactive quantum future.

B. THE ORIGINS OF CREATIVE ENDEAVORS

UNIVERSAL DESIGN PRINCIPLES AND REFLECTA'S HERITAGE

The Reflecta ethos has evolved over time. The vocabulary of truth, self-reflection, and symmetry is a reoccurring phenomena in the universe's history. True innovation always begins by investigating the historic path. Going back-to-the-roots moves the consciousness forward.

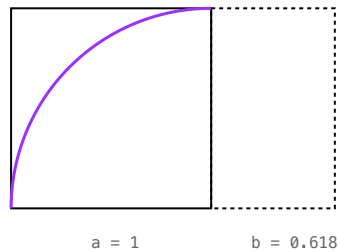

C. ICONIC GEOMETRY

CREATION OF IDENTITY: A BLUEPRINT FOR PROPORTIONS

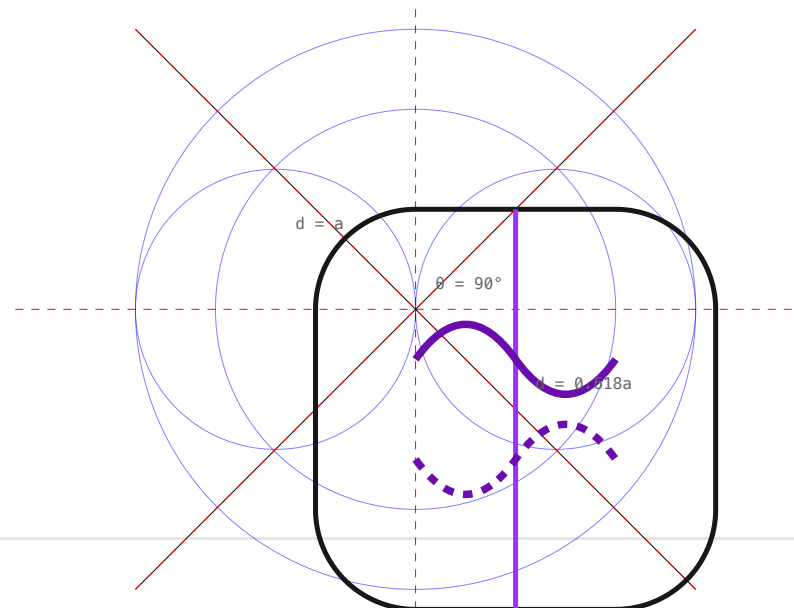

A. The Golden Ratio

It starts with a square. Artists and architects have proportioned their works to approximate the Golden Ratio. The Reflecta aesthetic respects these rules.

B. The Reflecta Ratio

The Reflecta brand is created by intersecting wave-forms across the Axis Mundi (the center line). The coordinates establish the Golden Ratio of the Human Mind.

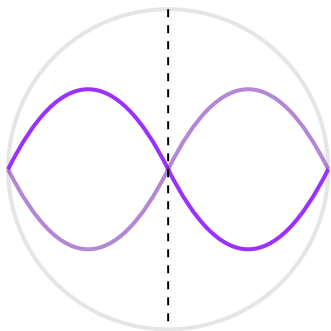

D. DYNAMIC FORCES

PERIMETER OSCILLATIONS & QUANTUM ENTANGLEMENT

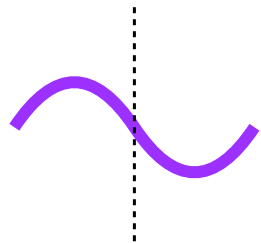

A. Quantum Superposition

In cognitive physics, human thought exists in a state of superposition until observed. The journaling process acts as the observer, collapsing the wave function into reality.

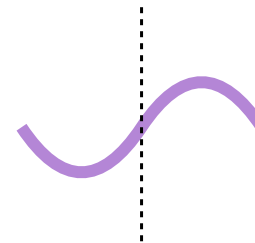

B. The Reflecta Energy Fields

Symmetrical energy fields are in balance. The top sine wave represents the Organic Human Input (Memory, Emotion). The bottom sine wave represents the AI Synthesis (Logic, Pattern Recognition). The central axis is the Interface of Symbiosis.

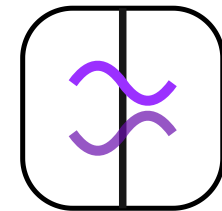

HUMAN FREQUENCY
Chaotic, emotional, upward
origin.

+

AI RESONANCE
Structured, synthetic, inverse
reflection.

=

ONTOLOGICAL SYMMETRY
Emotive forces shape the
gestalt.

E. COLOR THEORY

THE VIOLET FREQUENCY OF COGNITION

Objective Color / Subjective Emotion

Each color on the electromagnetic spectrum corresponds to a psychic value. Violet represents the highest frequency of visible light (approx. 750 THz). Therefore, it inherently represents the highest frequency of human consciousness and metacognition.

NEURAL EXCITATION (#9B30FF)

Sparks of memory, active journaling, immediate emotive state.

DEEP SYNTHESIS (#6A0DAD)

AI processing, profound self-reflection, long-term memory storage.

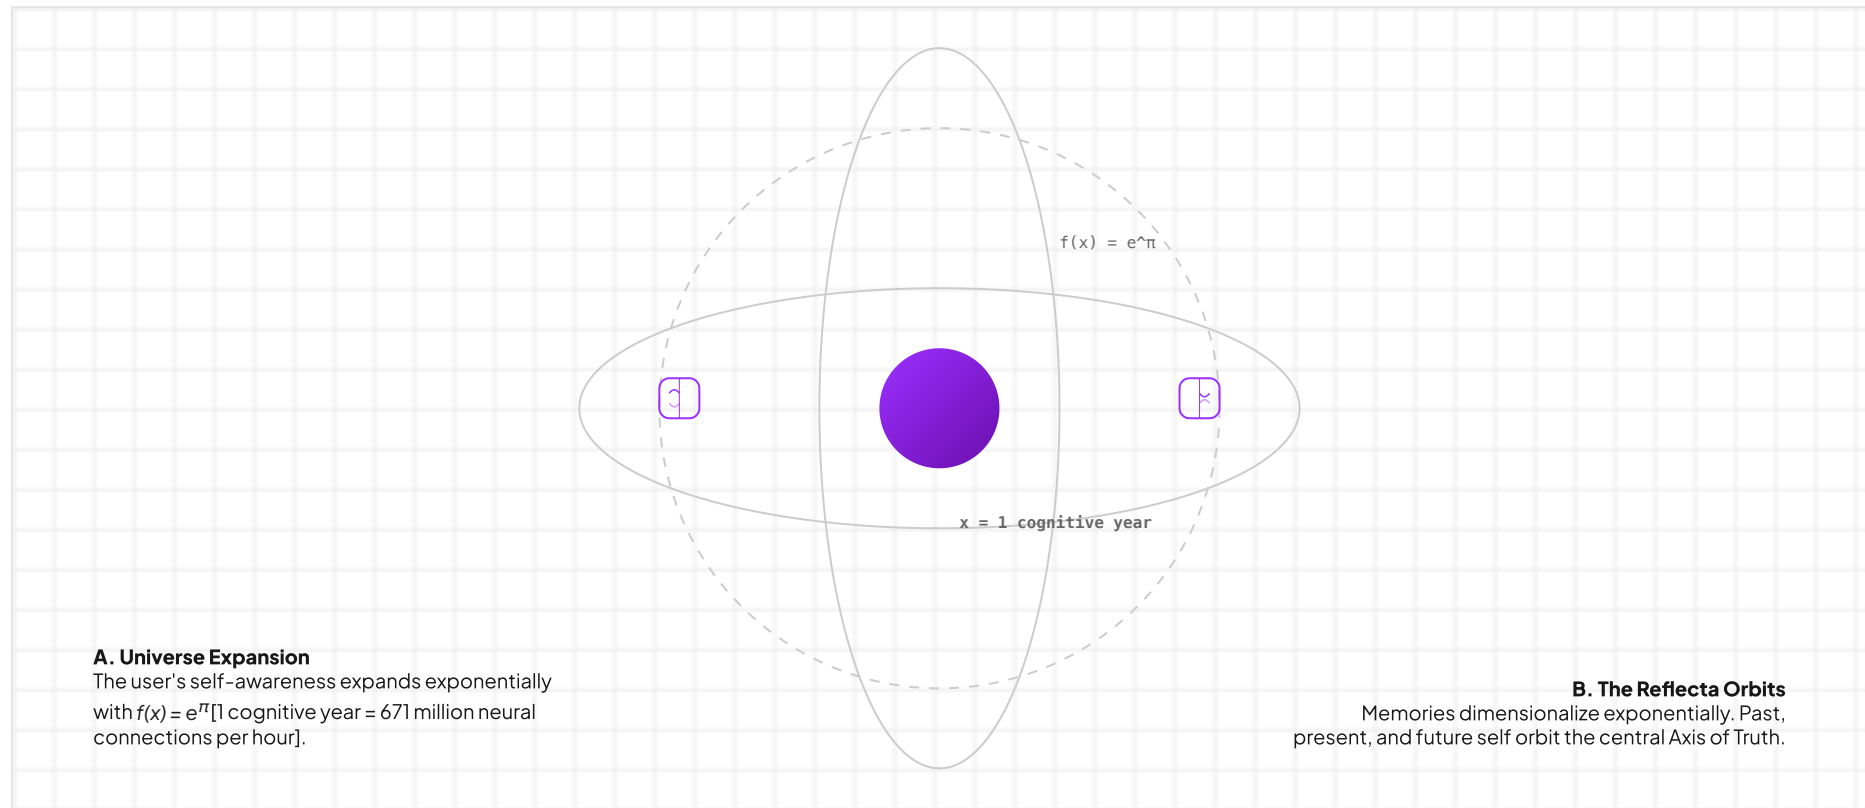

THE BREATHTAKING GRADIENT

The seamless transition from Human Input to Artificial Insight.

F. THE REFLECTA UNIVERSE

GRAVITATIONAL PULL & DIMENSIONAL EXPANSION

Establishment of a cognitive gravitational pull to shift from a "transactional" note-taking experience to an "invitational" psychological expansion.

VOLUME II

Style Guide & Animate

The operational vocabulary of Reflecta — colors, type, components, wireframes, journeys, motion and the emotive icon system that gives the cognitive interface its body.

The Operational Palette

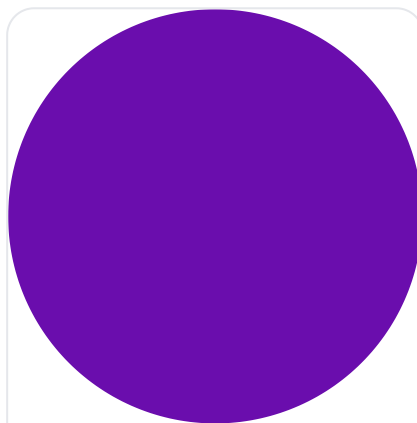

FROM FREQUENCY TO SURFACE

Three primary chromas, two soft surfaces and a neutral ladder. The violet pair from Volume I returns here as functional tokens — every interactive surface in Reflecta inherits from this list.

**Neural Excitation**

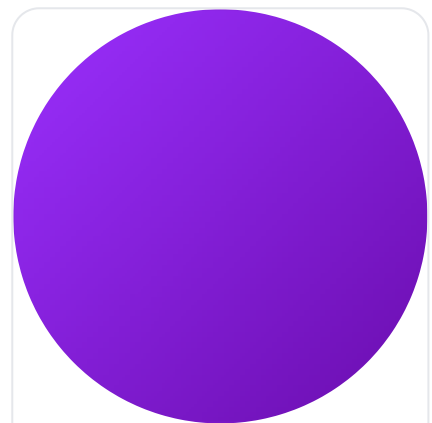

#9B30FF · primary

Primary actions, active states, focus rings, the "live" thread.

**Deep Synthesis**

#6A0DAD · secondary

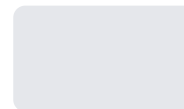

Hover & pressed states, headings on light, AI-spoken text.

**The Breathtaking Gradient**

135° · #9B30FF → #6A0DAD

Logo mark, hero bars, emotive highlight surfaces.

NEUTRAL LADDER

**Ink**
#171717**Ink-2**
#2b2b2b**Muted**
#6b7280**Border**
#e5e7eb**Soft**
#f8f7fb**The Symbiosis Surface**

linear-gradient(135deg, #9B30FF → #6A0DAD)

The Voice of the Interface

PLUS JAKARTA SANS · A COGNITIVE SANS

A single family carries the full system. Its geometric warmth resolves cleanly at small reading sizes and gains gravity at display weights — a sans that feels considered without becoming cold.

Aa

Plus Jakarta Sans · 300 / 400 / 500 / 600 /
700 / 800

family: 'Plus Jakarta Sans', sans-serif;

WHY JAKARTA

Open apertures keep journal text legible at 10pt. The 800 weight gives display headlines a confident, almost editorial presence — matching the document tone of Volume I without sacrificing UI utility at body sizes.

DISPLAY · H1

The Quiet Mind

SECTION · H2

A new entry

SUBHEAD · H3

Today you felt focused

EYEBROW · 8.5PT

MORNING REFLECTION

BODY · 10PT

Reflecta turns your written entries into a continuous signal of mood, intent and progress. The interface defers to the words.

MUTED · 8.5PT

Last synced 2 minutes ago · auto-saved to your private vault

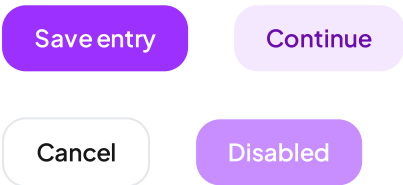

I.

Atomic Surfaces

BUTTONS · INPUTS · CARDS · CHIPS

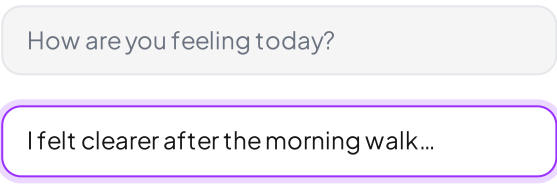

The component set is intentionally narrow. Generous radii (12–16px) soften the geometric type; subtle shadows imply elevation only on interaction.

BUTTONS · ROUNDED-XL 12PX

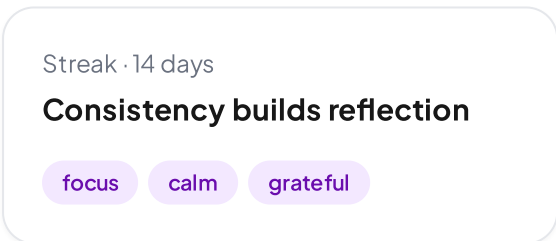

Active state: transform: scale(0.98); transition 140ms ease-out.

INPUTS · RING ON FOCUS

bg #f5f5f5 · focus ring 2px var(--primary).

CARD · ROUNDED-2XL 16PX

shadow-sm → hover shadow-md.

CHIPS & TAGS

Auto-extracted by the AI sentiment layer.

ELEVATION & RADIUS SCALE

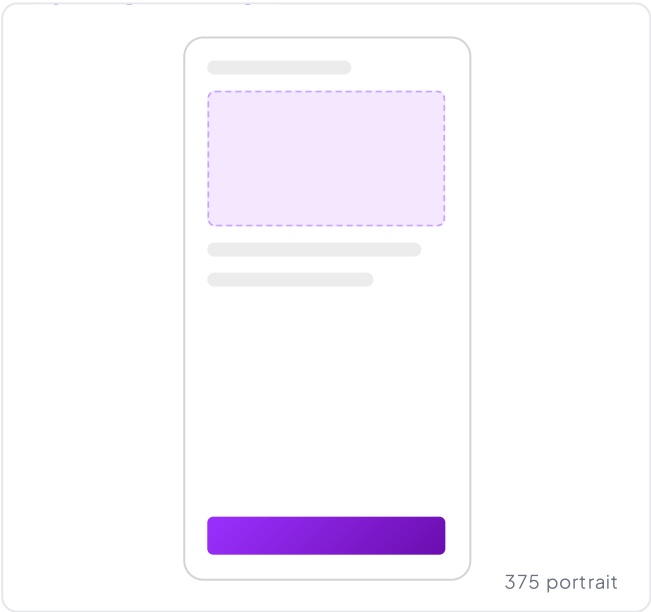

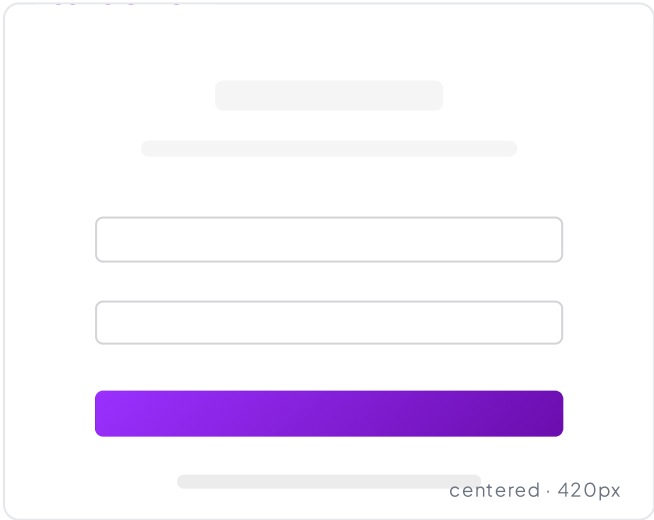

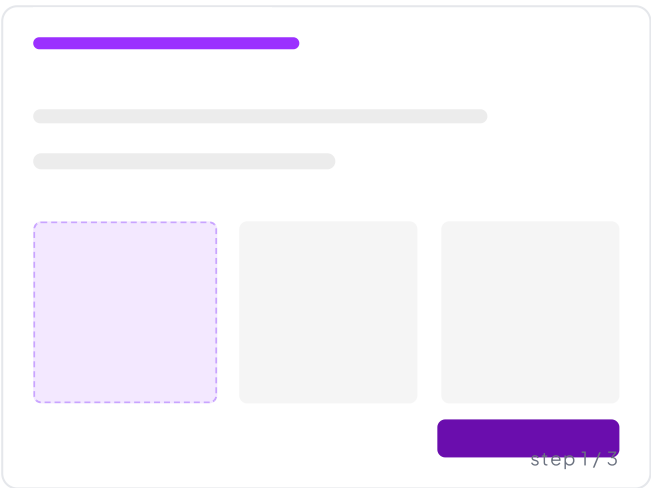

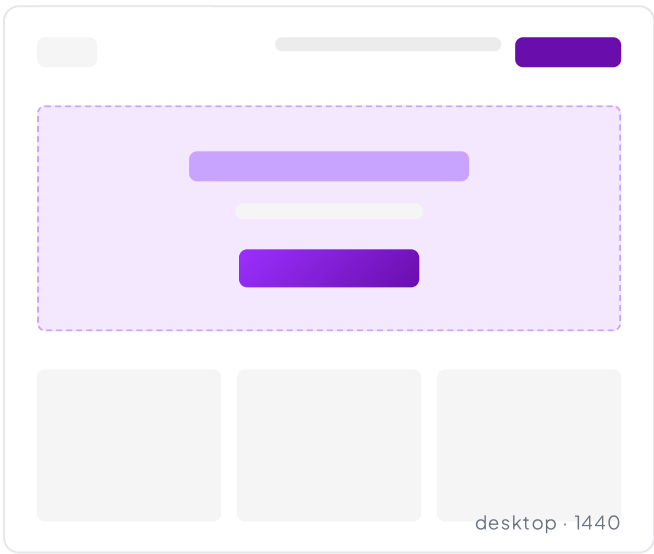

TOKEN	VALUE	USE
radius-sm	8px	Wireframe boxes, inline tags
radius-md	12px	Buttons, inputs
radius-lg	16px	Cards, modals
shadow-sm	0 1px 2px rgba(0,0,0,.04)	Resting cards
shadow-md	0 8px 24px -10px rgba(106,13,173,.18)	Hover & focus

J.

Wireframes — Public Surface

LANDING · ONBOARDING · AUTH

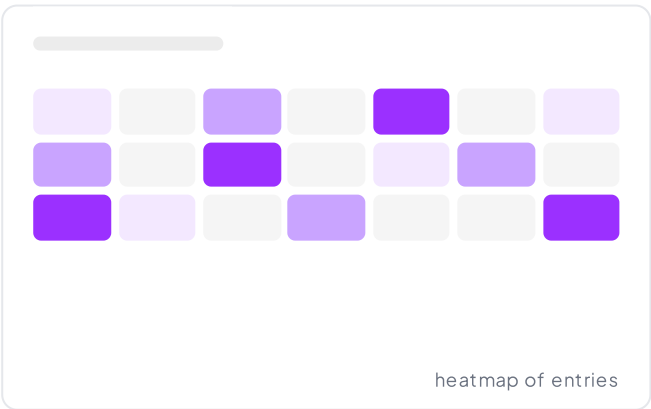

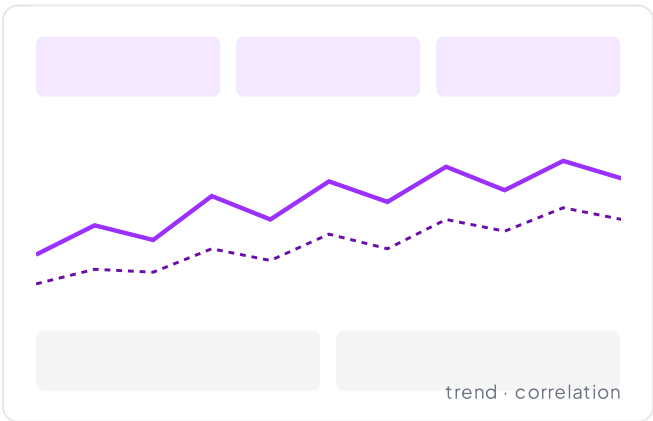

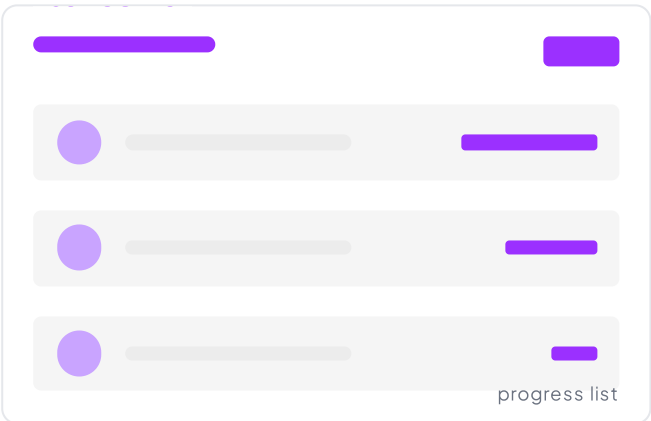

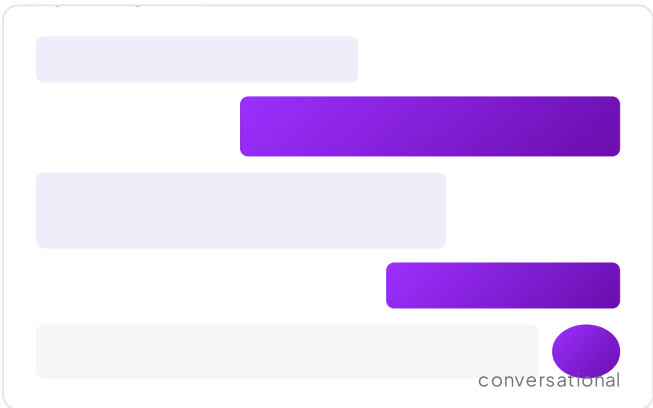

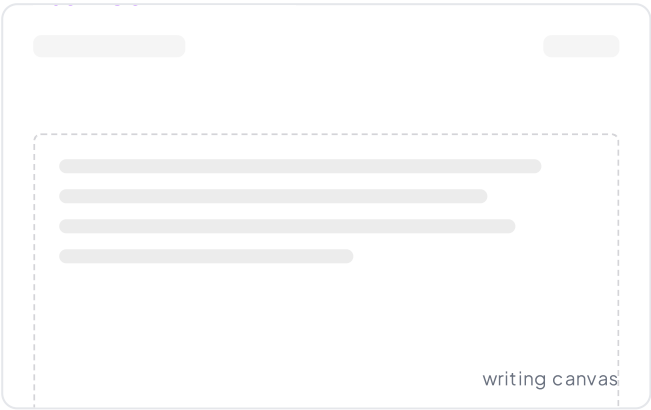

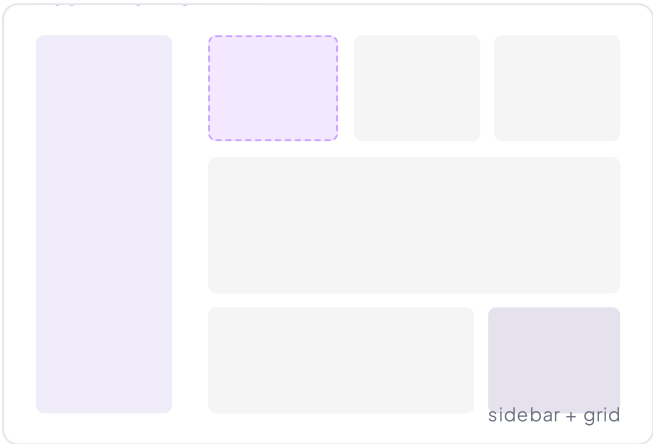

Schematic blueprints. Geometry and rhythm only — no chrome, no copy. The wireframes verify hierarchy, not styling.

J.

Wireframes — App Surface

DASHBOARD · JOURNAL · CHAT · GOALS · ANALYTICS · CALENDAR

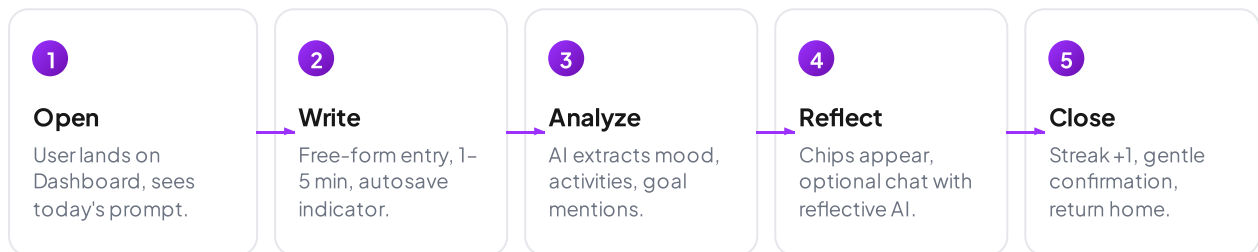

K.

Animated User Journeys

THREE PRIMARY LOOPS · TIMING REFERENCE FOR THE ANIMATIC

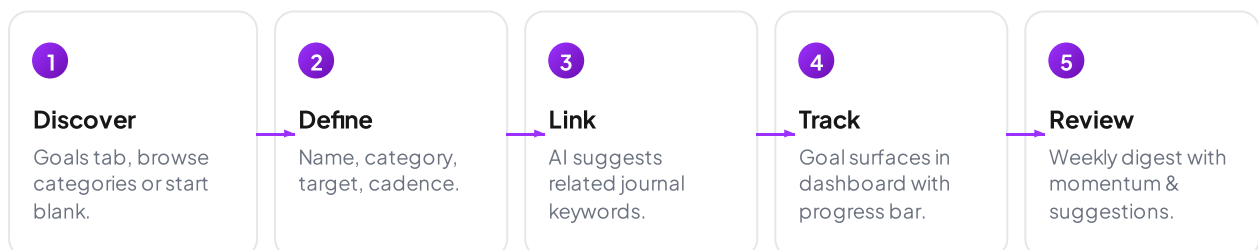

1 · Daily Reflection Loop

From notification to insight — the core 90-second ritual.

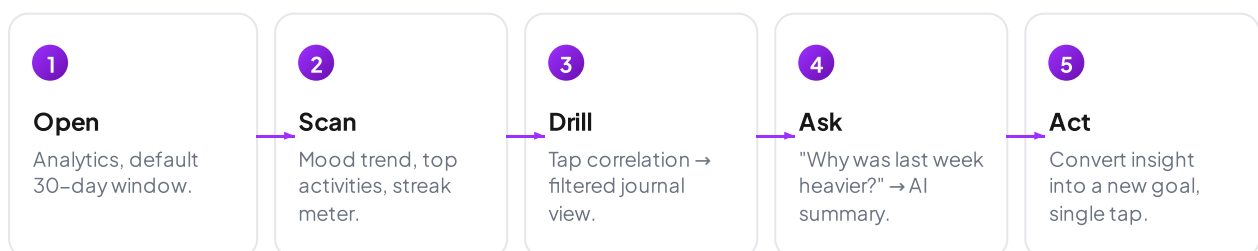

2 · Goal Setting Journey

From intention to a trackable, surfaced goal.

3 · Insight Discovery

From raw entries to a meaningful pattern.

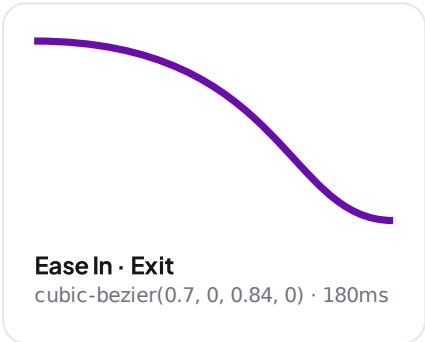

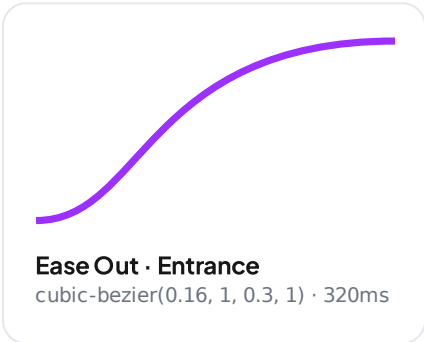

L.

Motion Specification

TIMING · EASING · THE ANIMATIC REFERENCE

Motion in Reflecta is restrained and human-paced. We use three easings only — one for entrances, one for exits and one for the gradient breathing on the logo.

EVENT	ELEMENT	PROPERTY	DURATION	EASING
Page enter	Route container	opacity 0→1, y +12px→0	320ms	ease-out
Card hover	Card	shadow sm→md, y -2px	220ms	ease-out
Button press	Primary button	scale 1→0.98	140ms	ease-out
Input focus	Text input	ring opacity 0→1	180ms	ease-out
Chip appear	Sentiment chip	scale 0.8→1, opacity 0→1	260ms · stagger 60ms	ease-out
Streak +1	Counter	number tween, glow pulse	600ms	ease-in-out
Modal enter	Dialog	scale 0.96→1, opacity 0→1	240ms	ease-out
Modal exit	Dialog	opacity 1→0	160ms	ease-in
Toast slide	Toast	y +20→0, opacity	280ms	ease-out
Logo breathing	Gradient mark	hue rotation ±6°, scale 1↔1.02	3200ms · loop	ease-in-out
Chart draw	Trend line	stroke-dashoffset	900ms	ease-out
AI typing	Bubble cursor	opacity 0.3↔1	900ms · loop	ease-in-out

Motion principle: nothing in Reflecta moves faster than a thought. No bounce, no overshoot — the interface breathes, it does not perform.

M.

The Emotive Lexicon

EIGHT STATES · THE VISUAL VOCABULARY OF SENTIMENT

Each emotion has a glyph, a tint and a written role. The AI sentiment layer never displays a raw score — it always speaks through this lexicon.

Joyful
#FEF3C7

Lightness, expansion, a good day captured.

Calm
#DBEAFE

Steady ground, low arousal, restorative.

Focused
#F3E8FF

Singular attention, deep work, flow state.

Grateful
#FCE7F3

Outward-facing warmth, connection.

Reflective
#E0E7FF

Looking back without judgement.

Energized
#FED7AA

High arousal, momentum, drive.

Anxious
#FEE2E2

Tension flagged · invites grounding flow.

Melancholy
#E5E7EB

Quiet weight, low energy, valid & held.

MAPPING RULES

VALENCE	AROUSAL	EMOTION CLASS	SURFACE TINT
Positive	High	Joyful · Energized	#FEF3C7 · #FED7AA
Positive	Low	Calm · Grateful	#DBEAFE · #FCE7F3
Neutral	Mid	Focused · Reflective	#F3E8FF · #E0E7FF
Negative	High	Anxious	#FEE2E2 → grounding flow
Negative	Low	Melancholy	#E5E7EB → gentle prompt
